Synthesis of Aminosulfones I: p-Aminophenyldialkyl-
aminoalkylsulfones) (* Extensive research work on the
synthesis and study of various aminosulfones had
started during the war. Wartime and early postwar
conditions hindered a regular exchange of scientific
literature; it was only after considerably delay,
therefore, that we learned about the synthesis of
these compounds abroad. Since we obtained a number of
amino-sulfones and their intermediate products by a
method different from that reported, we are publishing
this article as a preliminary communication.
